

**Kansas Propane
Education and
Research
Council
2021
Annual Report**

KanPERC 2020 Annual Report

In order to provide information regarding the activities of KanPERC, the Council prepares an Annual Report for all industry members and interested persons. KanPERC became effective September 1, 2003 with a two-tenths (2/10) of one cent per gallon assessment on odorized propane destined for end consumer use in Kansas. The KanPERC assessment was increased to three-tenths (3/10) of one cent per gallon effective April 1, 2010. For fiscal year 2020-2021 KanPERC received \$394,779.76 in assessment income and spent \$414,124.96 on expenses, including safety programs, safety classes and safety training. NOTE: Carryover cash reserves from previous years are used to cover expense items which may exceed income for fiscal year.

The KanPERC Council holds quarterly meetings at the KanPERC office and Training Center in Topeka and has by-laws and procedure manuals available which provides information and guidance to assessment payers, industry personnel, and the public about the educational and safety offerings of the Council. Please contact KanPERC for additional information.

Programs

Coloring Books

One of the original programs created by the Council was to provide safety information free of charge to all elementary schools in Kansas to better educate students about propane safety. A propane safety coloring book was designed, which is Kansas specific, and distributed to Kansas schools, Fire Departments and propane marketers to promote propane safety. These copyrighted propane safety coloring books are also distributed at public events, such as the Kansas State Fair, and are available for marketers to distribute to their customers. Approximately 86,000 coloring books were distributed in FY 2020-2021. KanPERC also provides the Kansas propane safety coloring book to other states as well. Numerous states have ordered this unique safety coloring book to promote propane safety within their state schools and at other events such as state fairs, farm shows or home shows.

Duty to Warn Information—Propane Safety Brochures

All propane companies in Kansas are informed annually that Fire Marshal approved propane safety brochures are available free of charge from KanPERC. These safety brochures, which include a “scratch and sniff” bulletin inside the brochure, are available from National PERC. These safety brochures provide consumer safety information pertaining to propane cylinder safety, propane tank safety and general propane safety including what propane smells like and how to safely use propane on the farm, in homes and at work. Over 250,000 “Duty to Warn” brochures were shipped to propane marketers, who then provided and distributed them to their customers across Kansas in 2020.

Training and Safety Videos

KanPERC is committed to promoting safety to all Kansas industry members and has numerous videos available for viewing upon request. Available videos can be found on www.kanperc.org, the Kansas safety website, and can be ordered by calling (785) 354-1749 or sending an e-mail to gregnoll@pmak.org.

Warning Tags and Out of Service Tags

Warning Tags and Out of Service Tags are made available to better assist marketers with customer safety. These warning tags are available at no cost to propane marketers. These tags are used to provide warnings to customers due to out of gas situations or unsafe conditions found at customer locations.

Propane Emergencies Training

In an ongoing commitment to fire fighter safety training, KanPERC provides educational materials to fire departments. Propane Emergencies Training is provided upon request for use by all fire departments in Kansas. KanPERC will continue to offer this training at no charge to fire departments.

Certified Employee Training Program

The **Certified Employee Training Program**, or CETP, is a formal structure for training, testing and documentation to assure that workers in the propane industry have the necessary knowledge and skills to perform their work safely and effectively. Properly trained and educated employees, customers and end-users mean a safer organization and a better bottom line for all involved. Employee training is mandated by Department of Transportation, National Fire Protection Association and Kansas State Fire Marshal. CETP provides propane professionals up-to-date, task-specific technical training that eliminates guesswork and empowers employees to perform their jobs confidently, knowledgably and safely. Propane business owners and managers can improve the safety of their employees and customers, increase productivity, adhere to federal and state regulations, and safely serve the communities in which they operate. CETP training is paid using KanPERC dollars and is offered free to all Kansas state industry members.

KanPERC Training Center

The KanPERC Training Center is located at 540 NW Broad Street. This building has an indoor classroom, meeting rooms and office space and was purchased and re-constructed to better meet the needs for training industry members. KanPERC offices are located in this building as well. This location allows KanPERC to expand classroom curriculum, which has been offered in past years, to include hands-on propane training, some conducted outdoors, to better prepare new propane industry members on how to safely conduct specific propane jobs in the most practical and safest way. A bobtail simulator was constructed to better assist in training new drivers through hands-on training. An electronic white board and sound system was installed as well for use in the training center.

Note: Per KanPERC statute, there have been no advertising or promotional programs paid for with KanPERC dollars. If you have questions, comments or concerns, please email Greg Noll at gregnoll@pmak.org. Additional information is available upon request.

2021 CLASS CERTIFICATES

CETP CLASSROOM	TOTALS
BASIC P&P	68
BASIC BOBTAIL DELIVERY	59
BASIC CYLINDER DELIVERY	58
BASIC PLANT OPERATIONS	17
DESIGNING & INSTALLING	7
PLACING IN OPERATION	7
CLASSROOM TOTALS	216
CERTIFICATES	TOTALS
DPS	402
STT	95
DOT & CEPT REFRESHER	637
CETP REFRESHER DURING CLASSES	216
CERTIFICATES TOTALS	1,350
CERTIFICATE TOTALS	1,134
CETP CLASSROOM STUDENTS	216
GRAND TOTAL	1,350
As of December 31, 2021	

KanPERC 2022 Registration Form

All classes will be held at the KanPERC Training Center at 540 NW Broad St., Topeka, KS 66608

ALL CLASSES START AT 9:00 AM. KanPERC Training is No Charge. Hotel and meal expenses are not included.

Register on-line at www.kanperc.org then click on [KanPERC Registration Form ONLINE](#)

Please check the class to be attended and **forward to edhattemer@pmak.org** at least 7 days prior to start of class

CETP 1.0 Basic Principles & Practices

___ May 2 & 3 – Includes Dispensing Propane Safely

CETP 2.1-2.4 Basic Bobtail and Cylinder Delivery

___ May 4, 5 & 6 - Includes System Testing Training

CETP 3.0 Basic Plant Operations

___ May 16 & 17

CETP 4.1 Designing and Installing Vapor Systems

___ June 6 & 7

CETP 4.2 Placing Vapor Systems into Operation

___ June 20 & 21

CETP 1.0 Basic Principles & Practices

___ July 11 & 12 – Includes Dispensing Propane Safely

CETP 2.1-2.4 Basic Bobtail and Cylinder Delivery

___ July 13, 14 & 15 - Includes System Testing Training

CETP 1.0 Basic Principles & Practices

___ October 24 & 25 – Includes Dispensing Propane Safely

CETP 2.1-2.4 Basic Bobtail and Cylinder Delivery

___ October 26, 27 & 28 - Includes System Testing Training
